

LED Troffers

LED Troffer 2X4

Everbright LED Troffers are reliable and cost effective LED replacement for fluorescent troffers which are widely used in offices and hospitals etc...

LED Troffers are eco-friendly, solid-state LED lighting systems which produce bright, even illumination while significantly reducing energy consumption. They adopt high luminous efficacy Samsung LEDs with a light output of 6,400lms for just 80watts.

Features

LED Troffer 2X4 is a direct replacement for 2X4 fluorescent troffer. It is assembled with milky cover which allows the light to be evenly distributed and create a homogenous, glare-free illumination.

Order Code

Product Code	Chip	Color	Color Temp.	Volts	Watts	Rated Lumens	Initial	Rated (hours)	Life	CRI	Beam Angle
E502480W	Samsung	Natural White	4000K	120VAC	80	6,400		50,000		80	172°

Specifications

- Net weight:** 8000g
- Dimensions:** 595mm x 1195mm x 120mm
- Beam angle:** 172°
- Connect wires:** L/N/G
- Light source:** Samsung
- Input voltage:** 120VAC
- Power factor:** 0.98
- Working temperature:** -30~40°C
- Storage temperature:** -40~80°C
- Housing material:** Aluminum

Dimensions

Cautions

1. Indoor dry location only
2. Not for insulated ceiling
3. Not for dimmer
4. Turn off power before installation and service
